3rd February 2019 in Biar

Centre Esportiu Colivenc encourages you all to participate in this competition, which will be held in a new map located near the beautiful town of Biar. The map is at an altitude of 1000m and is surrounded by an exceptional environment.

Biar is a small town from the province of Alicante. It has a population of about 3,000 residents and spectacular views of the landscape. The long distance race of the 2002 Junior World Orienteering Championship was held near Biar as well. Since then, many maps and races have been made in this outstanding part of Alicante.

Map: Fontalbres. Scale 1:10,000 / 1:7,500 / 1:5,000 (according to the class) Contours: 5m.

New map made by Juan Francisco Sánchez Sánchez (Mapeando) in November.

Mediterranean forest with variable penetrability. There are open and semi-open areas with high visibility where the vegetation details (shrub oak, vegetation boundaries, and distinct trees) to areas of leafy pine with good penetrability but low visibility, making it necessary to maintain good navigation.

There is a network of roads and paths normal in our area.

Elevation change of up to 75m.
